

ORDINARY GENERAL ASSEMBLY OF December 14, 2013 2012-2013 Annual Report

1. Thanks to those present and Robert Héline.
The new chairman of an association traditionally pays homage to his predecessor, and it is thus with great pleasure that I will say a few words of thanks Robert Héline for the excellent work he has done during all the years of his chairmanship. I had the pleasure of working with him as vice-chairman, but also under other circumstances, particularly at the Codifam, during the future governor training sessions. His financial skills have been greatly appreciated in his writings about the financial evolution of our Foundation. With his support and that of his predecessors, the France-USA ICC is now recognized internationally with the granting of the charter to the American section at the 2009 Birmingham convention. The new year thus begins in a spirit of continuity, with particular focus on traineeship exchanges supported by the New Generation program in partnership with the CRJ. Robert received the RI "Service Above Self" award .
2. Calendar for the past year: Notable events
Since the last general assembly, our association has mainly focused on developing traineeship exchange projects with the U.S. Our two vice-chairmen, Robert Héline and Max Gattein are the linchpins of all these programs.
3. Young Generation exchanges
 - a. Traineeships: Yann, engineer from ECAM Rennes who participated in a six-month traineeship with a Greensboro, North Carolina industrial firm specialized in textiles, whose workforce is 75 percent composed of visually-impaired employees.
