

Please HELP...:

**CLEAN DRINKING WATER for CHILDREN / Global Grant / de l'EAU POTABLE
pour les ENFANTS aidez nous, SVP...**

Dear Rotary Friends,

In some rural areas of Thailand, children avoid to go to school because they get sick as they cannot have clean drinking water at school...! This is not fare...

As Rotarians, we cannot let things go on like that, **“we need to ACT”** ... especially that August is the month of “Basic Education and Literacy”...

The Rotary E-Club 9920 Francophone has decided to participate in a **“130 Clean Drinking Water units for rural schools in Thailand” Global Grant** with:

- The **Rotary Club of Thawi Watthana, D.3350, as Host Club**, under the supervision of D.3350 DRFC PP Prasart Kiatpaibulkit (please see his message below)
- And the **Rotary E-Club 9920 Francophone, D.9920, as Primary International Partner, and Fundraising Coordinator**

As you can see on the Financing attached, the **GG total budget is USD 44,571**, and both of our Districts 3350 and 9920 are already willing to contribute to that GG with DDFs...

So, **we still need USD 17,986 in DDF, or USD 23,981 cash, or a mix of both...to complete the Budget**

Dear Rotary Friends, **this GG complies with at least 2 of the 6 Focus of RI: “Water and Sanitation”, and “Basic Education and Literacy”**...

So, may I please ask you to read this mail, look at the attachments, think about it, and please **ask your Rotary Club, your District, and your Friends, to participate**, even if it would be only with a little cash or some DDFs...

By Joining hands, we can do great things.....

“SMALL RIVERS MAKE BIG LAKES”...

Cher Amis Rotariens,

Dans certaines régions rurales de Thaïlande, les Enfants évitent d'aller à l'école car ils risquent de tomber malades, n'ayant pas d'eau potable pour boire à l'école... ! Ce n'est pas juste...

En tant que Rotariens, nous ne pouvons pas laisser les choses rester comme ca, **« nous nous devons d'AGIR »**...ceci d'autant plus que le mois d'Aout est le mois de **« l'Education de base et de l'Alphabétisation »**...

Le **Rotary E-Club 9920 Francophone** a décidé de participer à un **“130 Clean Drinking Water units for rural schools in Thailand” Global Grant** avec:

- Le **Rotary Club of Thawi Watthana, D.3350**, comme « **Host Club/Club Hote** », sous la supervision du D.3350 DRFC PP Prasart Kiatpaibulkit (voir son message ci dessous)
- Et le **Rotary E-Club 9920 Francophone, D.9920**, comme “**Primary International Partner/Partenaire International Principal**”, et **Coordinateur de la Levées de Fonds**

Comme vous pouvez le voir sur une des PJ, le **GG total budget est de USD 44,571**, et nos 2 Districts 3350 et 9920 vont contribuer avec des DDFs à ce GG...**nous avons donc encore besoin de USD 17,986 en DDF, ou de USD 23,981 en cash, ou un mix des 2...pour pouvoir arriver au Budget**

Chers Amis Rotariens, **ce GG est en adéquation complète avec 2 des 6 axes du RI : l’Eau...et l’Education...**

Puis je donc vous demander de bien vouloir lire ce mail avec attention, regarder la PJ, y penser, et **demander à votre Rotary Club, à votre District, et à vos Amis, de bien vouloir participer**, même si ce n’est qu’avec très peu de « cash » ou quelques DDFs...

En travaillant « la main dans la main », nous pouvons faire de grandes choses...

LES PETITES RIVIERES FONT LES GRANDS FLEUVES...

As Fundraising Coordinator of this GG, please feel free to contact me if you would need any other information/ en tant que Coordinateur de la Levée de Fonds pour ce GG, n’hésitez pas à me contacter si vous avez la moindre question...

Objet : Proposal for Clean Drinking Water GG

Dear PP.Dr.Jean Louis Nguyen Qui,

Good day to you..

I'm writing to propose a Clean Drinking Water project for your consideration.

Project Objective:

To support water filtration to school children within rural Thailand.
Currently, school children in rural Thailand are facing a problem of unsafely drinking water because tap water or underground water are not clean enough for human consumption in Thailand.

Host Partner

Rotary Club of Thawi wathtana D.3350

International Partners:

Primary Contact: Rotary E-Club 9920, Francophone

Project Budget

130 units of Reverse Osmosis Water Filtration System.

Total budget USD 44,571

Host Contribution:

DDF US\$ 1,800

Cash US\$ 1,000

International Contribution:

DDF US\$ 20,000

Enclosed are a project application of the project in the previous year and a project budget calculation table for your reference.

Should you have any question please do feel free to contact me at anytime.

Looking forward to receiving your kind support in this project.

YIR,
Prasart Kiatpaibulkit
DRFC D3350
