

## **POUR POUVOIR CONTINUER A VIVRE, ILS ONT BESOIN DE VOTRE AIDE...**

Chers Amis Rotariens,

Serait il possible que votre Club ou/et votre District puisse être intéressé à participer à cette Action Internationale Global Grant “3 Dialysis machines for Fang Hospital in Northern Thailand” ?

Il ne nous manque plus que USD 4.000 DDF pour arriver aux 43200 USD du Budget total...

Contactez rapidement SVP, si vous êtes intéressés.

Amitiés Rotariennes,

Jean Louis Nguyen Qui

**Pouvez vous aider un peu, avec seulement USD 200, et plus...**

### **“3 Dialysis machines for Fang Hospital in Northern Thailand”**

**Club Hôte:** Fang Rotary Club, D.3360, Thailand

**Partenaire International Principal:** Rotary E-Club 9920 Francophone,D.9920

**(Coordinateurs de la Levée de Fonds:** Rotary E-Club 9920 Francophone,D.9920 Rotary Club of Patumwan, D.3350)

#### **Project outline:**

Thailand Public Health authorities report an estimated total of 180,000 cases of renal dysfunction – 15% (27,000 cases) classified as acute and 85% (153,000) as chronic. The yearly increase of reported patients suffering from renal dysfunction amounts to 10,000 cases. The actual statistics could be three times as high because very poor patients could not afford any dialysis treatment, do not get recorded in the kidney health statistics, and die an untimely and agonizing death. There are currently 3,300 dialysis machines in running condition in Thailand and can cope with an average of only 5,000 patient rounds a day, a far cry from the prevailing desperate need. The new machines will cater to and add 1400 vital life-saving patient rounds a year. On receipt of complete grant funds, the machines can be installed on a turnkey basis at Fang Hospital within a three-month time frame. The project is provide the seminar for public to create awareness on Kidney Disease(CKD) .Make the people try to live healthy and avoid the disease that can make them have economy crisis. Including provide the training for registered nurses who will work with Hemo Dialysis unit that can help people with kidney disease to live longer. The project is to fund and provide 4 units of dialysis machine complete with standard accessories for Fang Hospital in Fang District that can help the people in Fang District and nearby in Chiangmai province get opportunity to access the medical treatment and life-extending therapy.

We would like to get the funding for 3-4 dialysis machines.

Thank you very much for your kind support.

Rotary serving humanity,

Prasart Kiatpaibulkit
