

Paris, 10/03/2021

Madame, Monsieur,

Si je m'adresse à vous ce jour c'est que la situation requiert d'un caractère impérieux.

En effet, le CIP France-Inde vient de recevoir une demande d'aide concernant des travaux d'aménagement d'une école public située dans le village de Vidur qui se trouve à 25 kms de Pondichéry, en Inde.

Ce projet d'aménagement a pour but de rénover les toilettes existants mais aussi d'en construire de nouveaux pour assurer une salubrité certaine dans l'établissement afin que les élèves puissent bénéficier d'un enseignement dans des conditions sanitaires acceptables.

Cette école compte 900 élèves dont 415 jeunes filles et seules quatre toilettes leur sont dédiées. Cette situation est plus que difficile à vivre pour ces élèves et a un impact considérable sur le déroulement de leur apprentissage.

Il est difficile aujourd'hui de concevoir le bon suivi d'un enseignement sans avoir la garantie du respect de la mise à disposition de structures sanitaires nécessaires au bon déroulement de ce dernier.

Ces travaux seront bien évidemment suivis par le CIP France-Inde lequel se porte garant d'en assurer la bonne réalisation.

A ce jour, nous sommes à la recherche d'un club ou d'un district pouvant venir en aide à cette école lequel s'engagerait à financer les travaux de rénovation dont le coût a été estimé à une valeur de 177 000 roupies indiennes soit l'équivalent de 2 100 euros.

Je vous joins à cet effet les photographies de l'établissement concerné ainsi que la position GPS afin que vous puissiez localiser le site en toute transparence.

Je me tiens à votre disposition pour toutes demandes d'informations complémentaires.

En vous remerciant d'avance de l'attention que vous aurez pu prêter à notre requête, je vous prie de croire, Madame, Monsieur, en mes meilleurs sentiments.

Sub: Requesting for renovating the toilet building in the Government Higher Secondary School Veedur.

Respected Sir and all Board Members,

First of all, I thank god for getting your Introduction and thanking you all for allowing me to speak with you. I heard about you, from my close friend. I am appreciating and **wishing CIP FRANCE-INDE for the wonderful jobs done.** You are doing a lot for our people. Very proud of CIP FRANCE-INDE. Surely God bless you and your family for your good and nice deeds.

As an old student, I want to do something to my old school. Here the issue is the basic need, toilet facility is not sufficient. The total strength is 950 students(500 boys and 450 girls). Now, the school is having 2 toilets,4 urinals separately, and 1 toilet and 2 urinals separately(1 Western toilet for handicapped students). But all the above are for staff and teachers. As no other way girls are also using the same toilets.

But within the interval, there is no sufficient facility to fulfill the girl's needs. **They are suffering a lot it can't be explained in words.** Without frequent urination and with the basic girl's problem, they are very much struggling. It affects academics also. They are suffering physically and emotionally too. **They are in the need of a toilet facility.** It is very necessary to make them comfortable.

There is a building with 4 toilets which is located in the corner of the school campus, without usage. It is not in the good condition definitely it can't be accessible. By knowing about your precious and prestigious association, I am approaching you for requesting to renovate the above-said toilet building.

I had created a WhatsApp group by adding the old students, for asking their contribution to this project, so now I am having Rs.29,000(INR)(But unfortunately the maximum amount of this was contributed by my close relatives). But this is not sufficient for our project, so I am approaching CIP FRANCE-INDE.

So I am requesting you all to help us to restore the toilet building. Please do a favor for us. If it is accomplished, definitely, all the girls are very much benefitted, and always we(parents also) are thankful to all of you. Hopefully, I am adding the project plan and the project estimation.

Our Plan:-

To raise a new wall in front of the old building and setting up the roof sheet above the roof of the old building. And to place 8 to 10 urinals near the new wall. The old toilet needs to be cleaned and to turn it to good condition. Luckily water facility is

available. But the septic tank is not in good condition. We are in the need to restore it.

While processing, there can be a slight change in the plan. Of course, we do with efficient workers and effective materials. We will always be taking care of all the things.

Building:-

Length- 27 ft
Breath- 10.75 ft
Height- 13.5 ft

Septic Tank:-

Length- 11 ft (outer)
Breadth- 7.50 ft (inner)

Materials Required:-

M-sand- 3 units
Bricks- 7000 Nos.
Cement- 50 sacks
Roofing sheet- 18Nos.(3 ft*6 ft)
Kadappa Slabs- 7 Nos.(1.5 ft*7 ft)
Plumbing Materials:-
Pipe - 4 inch and 1 inch, T bend, Tap fitting, Solvent
Rods- 8mm(6 Nos.) , 10mm(5 Nos.) , 12mm(15 Nos.)
Binding Wire(3 kg)

Flooring Tiles:-
25.5 x 10 = 270 sq.ft

Wall Tiles:-
25.5 x 5 = 128 sq.ft
4 x 5 = 20 sq.ft
10 x 5 = 50 sq.ft
Total = 200 sq.ft
Urinals - 10 Nos.

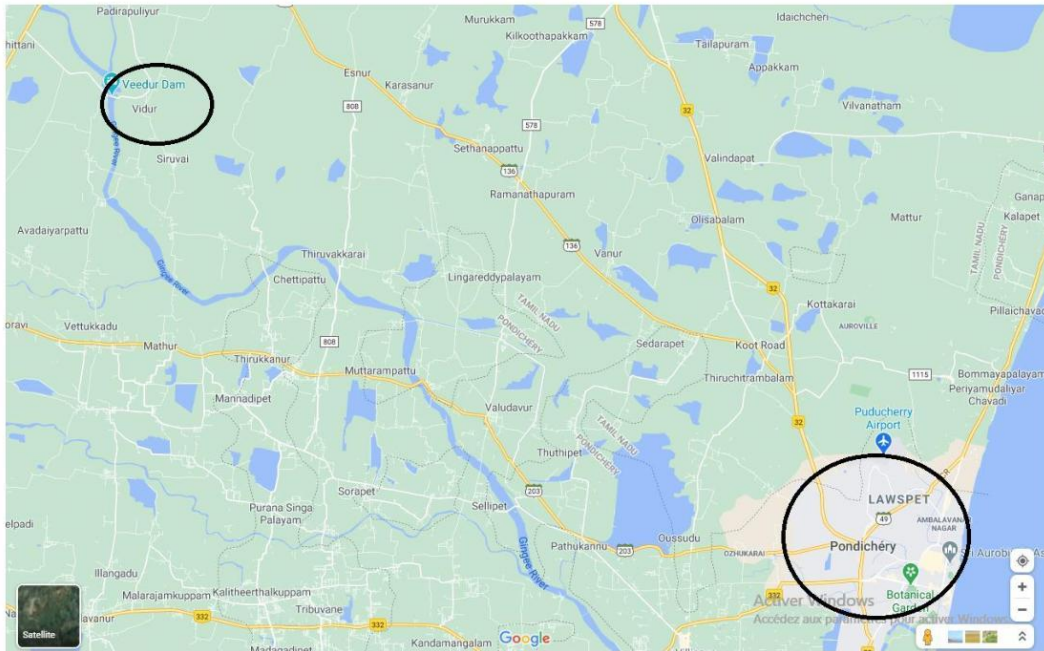

Paints:-
Primer - 9 L
Exterior Emulsion - 6 L
Interior Emulsion - 4.5 L

Labour:-
Construction - 45 labourers
Painter - 5
Plumber - 4
(Some changes may occur in the required amount of labors and materials)
Estimated amount (approx.) - Rs.1,60,000(INR)
Thanking you. Please do a favor for us.

Yours Truly,
Bharathi G
